- **37%** of vaccinations completed were racial and/or ethnic minority patients

Health Centers evolve to meet the needs of their community by hosting special events to serve their patients:

- **36** Combined Pop-up clinics, School based Vac. Sites, Family Vac. Clinics

Covid Test Turnaround Time for This Time Period:

- **65%** of health centers report COVID-19 test results have a turnaround time of 24 hours or less

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on November 4, 2022. 26 of 34 federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit [https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data](https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data).

1. Total reported refers to the number of respondents since the survey period starting on April 3, 2020.
2. Due to staff exposure, school closure, site/service closure, and other reasons.
3. This includes additional COVID-19 vaccinations or booster doses.
4. Number of health centers who reported this data for the time period.
