OREGON PRIMARY CARE ASSOCIATION'S
ADVANCING HEALTH EQUITY AND DATA (AHEAD) COLLABORATIVE

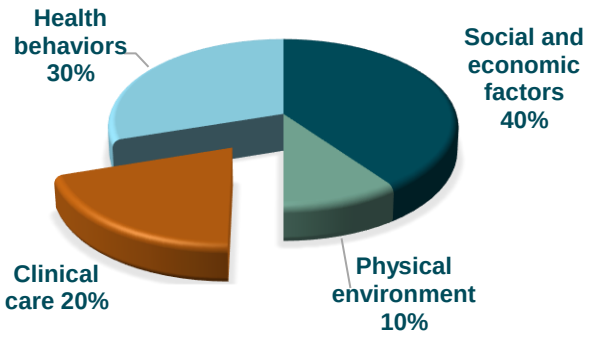
WHAT

The link between health and socioeconomic conditions is well established, and community health centers who were built on this relationship over 60 years ago, have been working steadily for decades to improve the health of families and communities experiencing poverty.

The Oregon Primary Care Association's (OPCA) vision for health centers is to enhance health center effectiveness in understanding and addressing the root causes of poor health to…

1. improve health outcomes,
2. reduce health disparities, and
3. maintain funding in an environment of value-based pay

WHY



Source: http://www.countyhealthrankings.org/explore-health-rankings/what-and-why-we-rank

This year-long two track collaborative focuses on supporting health centers in **collecting and utilizing social determinants of health data** to demonstrate **value**, will highlight **best practices** in health centers both locally and nationally, and will consist of face-to-face, webinar, and peer-learning opportunities.

COLLABORATIVE OBJECTIVES

The unique role of Oregon's health centers in addressing the social determinants of health can only be accomplished through access to data. OPCA is building on the foundation of health centers by hosting a collaborative to support Oregon clinics in their capacity to collect and analyze upstream social determinants of health data. Participants can hope to:

⇒ Develop a common vision and standardized pool of social determinant of health (SDH) data as a statewide network;
⇒ Operationalize workflows, data collection processes, and EMR use of the Protocol for Responding to and Assessing Patient Assets, Risks and Experiences (PRAPARE) tool;
⇒ Advance analytic capacity to use population health equity data for advocacy purposes at the local, state and federal levels;
⇒ Prepare for future funding opportunities and state incentive metrics that call for a focus on SDH.

2019 TIMEFRAME AND CONTENT:

OPCA training & technical assistance offered	**Jan**	**Feb**	**Mar**	**Apr**	**May**	**Jun**	**Jul**	**Aug**	**Sep**	**Oct**	**Nov**	**Dec**
SDH Kickoff												
Data Kickoff												
Community of Practice Webinars												
Peer learning "Buddy" calls												
Clinic Site Visits												

Topics and themes: Workflows, Team Communication, Social Risk Adjustment, Documenting Enabling Services, SDH Reporting, Data Visualization, Calculating Return on Investment, Dashboard Development.
